Director's Meeting
11 December 1951

It was agreed that there would be no need for [] to fill out a PHS, in view of the fact that he had all types of clearances.

The DCI indicated that his [] paper would be taken to the President today by Jimmy Lay and that tomorrow, the Secretaries of State and Defense would be asked to remain after the NSC meeting at which time implementation of the paper would be discussed. The DCI would speak on it at that time.

With respect to the move of [] the DCI indicated that it would have to get out of Washington but that a location similar to Fort Meade or Fort Humphries would be much more desirable than that presently contemplated. He also mentioned the fact that [] had lunch with Secretary Pace recently to object to this move.

Mr. Becker informed the DCI of Col. Hansen's report respecting [] testimony on discussing his European trip with Adm. Souers, the DCI and Mr. Dulles. The DCI commented that we had talked with Caudle only because Adm. Souers had specifically requested it and [] gave no information of value. It was noted that O/O's contact people in New York were receiving inquiries on this and the DCI was advised that they had already been directed to reply that [] had talked to CIA only as a volunteer.
